Mark,

Thank you for your email but as we said earlier, we looked into this situation and are satisfied that it was an accident that was corrected when discovered. End of story.

We are committed to service excellence.

I am STILL waiting for someone to call me back.

The man who informed of the incident and took a photo of the flag told me the security guard at the building told him the flag was turned upside down "because everything is upside down under Trump." If true, this doesn't seem inadvertent.

I cannot fathom how a flag could be hoisted without someone noticing it was upside down.

Did the same thing happen at your MLK facility in 2011?

Mark,

You made a pretty big assumption in your email to the Secretary yesterday.

We looked into it and found it was neither a stunt nor deliberate. It was an accident that was corrected as soon as it was discovered. End of story.

We are committed to service excellence.

Mr Meyer

I contacted your communications chief who has not responded to my calls. I spoke to your Milwaukee office director who claimed not to be aware of the stunt. I called your office directly.

I am inquiring about the stunt this morning in which the American flag was deliberately hung upside down by DNR employees at the MLK Drive office in Milwaukee. The Milwaukee director told me he knew nothing about it. He seemed to show no interest in investigating it.

My program begins at 3
