

## Wisconsin Is Not Open For Business Anymore

It took less than two days for Governor Tony Evers to take down the slogan “Wisconsin Is Open For Business” on those wooden Welcome signs on major highways entering Wisconsin. State workers took the words off the bottom of the signs and replaced them with Evers’ name and title. Evers aides did not respond to my questions about why they don’t want to claim Wisconsin is open for business. Evers was inaugurated Monday. The signs were changed by Wednesday
