Time for peace is fucking done, seriously, its not getting thru their thick fucking skulls, maybe some live rounds will, I'm so over seeing these cops getting away with bullshit, we need to start executing them in the streets like they do us, I want them afraid to leave their homes the way they do us, I want them scared that if they so much as step out of line they might get got, like they do to us.... Fuck peace, time for action, this shit is war, this shit is good vs evil, this shit is us vs them, Peace?! When the fuck have they ever shown us peace? "but we don't wanna stoop to their level" fuck that, when the only language they speak is violence, how you gonna expect them to understand peaceful resolve and logic and reasoning.... Fuck peace, start lining these fools up back to back to save money on ammo.... Ready for the revolution, just waiting on the word...
