

Hartford School Board Member Praises Kaepernick For National Anthem Kneeling, Lauds Radical AOC

By Mark Belling, WISN-AM

A member of the school board in one of the state's most conservative communities is publicly endorsing Colin Kaepernick, calls kneeling during the national anthem "a perfect protest" and praises radical US House member Alexandria Ocasio-Cortez as someone who "speaks so well and so clearly " and "who has an important message."

The board member, Erin Welk, includes that leftist content, and more, on her personal Facebook page. I'm not linking it because it includes all sort of posts about her family but the page is not private and is open to anybody who enters her name in the Facebook search.

Welk is a member of Hartford District #1, which operates a number of elementary and middle schools in the Washington County community.

This district is separate from the district that runs Hartford Union High School, which has a separate school board and operates independently.
